Department of Pediatric Dentistry PMS College of Dental Science & Research, Trivandrum proudly presents to you a workshop on **"Systematic Review and Meta- Analysis"**. Over the years, formal methods have been developed for reviewing studies. Currently, it is modified into Systematic Reviews. These are systematic methods to collect secondary data, critically appraise research studies and synthesize findings qualitatively or quantitatively. It is therefore essential that students taking dissertation work, practicing clinicians, health researchers and policy makers are familiar with the processes involved in the performance and interpretation of systematic reviews. An understanding of systematic reviews and how to implement them in practice is highly recommended for professionals involved in healthcare.

This CDE aims to equip the delegates on how to conduct a systematic review in an explicit and methodical manner. We heartily welcome each and every one of you to this knowledge-filled CDE programme.

FACULTY
Dr. Sheeja S. Varghese

Dr. Sheeja S. Varghese, Professor and Head, Dept. of Periodontics, Dean of Saveetha Dental College, and is a PhD guide.
