

PMS COLLEGE OF DENTAL SCIENCE & RESEARCH

EXTENSION ACTIVITIES

Various Departments organized many extension and outreach programs through organizations like National Service Scheme. Faculty and students actively participated in television programs and Radio talk shows to create oral health awareness and discuss related social issues. The extension activities enhance the students' academic learning experiences, promote integrity, accountability, inculcate social values and soft skills. They learn to think beyond their individual interests and apply the theoretical knowledge for the benefit of the society. Teamwork, leadership skills, time management, effective communication and decision-making skills are a few things that students learn while participating and organizing various extension activities.

OUT REACH ACTIVITIES

The institution aims to be an outstanding Dental and Research institute of International standards imparting quality education, skills and values to the students. The 100 result achievement for the Post Graduation in all eight specialities in three consecutive years is one of the marked area of institutional excellence. The institution meticulously plans and provides excellent infrastructure and learning resources with the help of highly professional organization structure, for imparting quality education. The regular conduct of Continuing Dental Education Programs and personality development and motivational programs, faculty development programs and teachers training program continuously propels the institution towards achievement of quality education and advanced dental technology. Research culture inculcating is done by giving opportunities and exposure to the students for various conferences and research presentations. Extension services and outreach programs initiated by the institution contributes towards National Health Programs and social commitments which is identified as the mission of the College. Various MOUs initiated by the institution enables wide exposure to the students and patients at international level. The NSS activities, field projects and the regular camps conducted imparts awareness on Dental Science and Oral Health to the Society. A vision oriented growth is achieved by continuous and healthy interactions and feedback appraisal systems, from all the stakeholders like students, parents, alumni, peers etc. Value based education is imparted to the students, which is inculcated in their educational system informally by teachers and the mentors.
