NOTICE

On account of WORLD AIDS DAY, the Department of Public Health Dentistry is observing and supporting the UNAIDS awareness campaign.

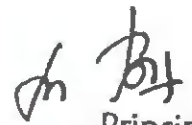

According to The UNAIDS *Prevention gap report* shows that worldwide about 1.9 million adults have become Infected with HIV every year for at least the past five years and that the number of new HIV infection is rising in some regions. The report shows that HIV prevention efforts must be reinvigorated if the world is to stay on the Fast-Track to ending the AIDS epidemic by 2030.

As a part of awareness, it is requested to all Departments to support & participate in the awareness following the UNAIDS campaign.

- Take a photo of your raised hand with a word or phrase written on your palm. (The word or phrase could be the suggestive measures for the effective prevention against HIV infection or transmission on the well-being of the survivors.)
- The photo can show just your palm or your palm and face. (Make sure your hand is not too far from your face.)

A person will be sent to all departments to take the photo during the forenoon session. Then the photos will be uploaded in UNAIDS Facebook page specially created for the 2016 World AIDS Day #HIVprevention campaign. All are advised to participate and support the same.
