Where, both the Organizations have formulated a collaboration under the 'Geriatric Prosthodontic Program' aiming the Prosthodontic rehabilitation of the elderly inmates of the institute under the aegis of the Department of Prosthodontics of the College.

This program intends to provide removable /fixed prostheses for the needy at the institute along with preventive treatment measures to retain remaining teeth in good condition. Ambulatory patients who need complex prostheses (fixed partial dentures (FPD)/Maxillofacial etc.) will be wheeled-in to the department using college conveyance. The proposed plan is to make at least two visits in a month along with the PHD (Public Health Dentistry) staff. A team comprising a staff, and a PG, of the department of Prosthodontics along with PHD personnel will be making the visit and providing the treatment. The sole aim of this program is to extend the college activities at the community level, in particular the geriatric community, as a social outreach program for the betterment of the society at large, and can be a big solace to non-ambulatory elderly patients housed in hospice facility.
