FEEDBACK ANALYSIS REPORT

As a process of improvement in academic quality and updation of the curriculum a feedback on the curriculum is obtained from various stakeholders such as students, teachers, employers, alumni and professionals.

Online feedback is collected from the participants from a structured feedback form. The reports are collected and analyzed by the centered 1st subcommittee and the suggestions are submitted in the meeting of IQAC which is then discussed in the academic committee and the suggestions are placed in IQAC meeting. Following are the responses received.

Student's Feedback on Curriculum

More than half of the students agreed that the syllabus was challenging and up to date. Most of the students felt that the allocation of subjects to the program is appropriate in relation to the level of course work. Majority of the students concurred that the units and sections in the syllabus are appropriately sequence. About half of the students have the opinion that the curriculum has equipped themselves with necessary technical skills to ace the day to day treatment. More than half of the students agreed that the depth of course content is adequate in relation to the expected course outcomes. A greater number of students admit that almost entire syllabus was covered in the class by the teacher. About 66% students felt that the curriculum enabled them to improve their ability to formulate, analyze and solve problems. 77.3% students admit that the curriculum inculcated necessary ethical values and concern for the society. About 81.1% students had the opinion that the recommended textbooks are adequately available and apt for the syllabus. A greater number of students felt that the labs and experiments enhanced their understanding of the sills an enabled them to relate theory to practice.

Teacher's Feedback on curriculum

96.1% teachers have found that the courses taught by them have good balance between theory an application. 98.1% teachers agreed that the objectives of the syllabus are well defined. Less than half of the teachers felt that the curriculum allows to adopt new techniques/strategies of teaching such as group discussions, seminar presentations and learner's participation. About 98% teachers admit that the tests and examinations are conducted well in time with proper coverage of all units in syllabus.94.2% teachers felt that the books/journals etc. prescribed /listed as reference materials are relevant, updated and cover the entire syllabi.95% of the teachers have found that the courses/syllabi of subjects taught by them increased their interest , knowledge an perspective in the subject area .92.2% of the teachers felt that the prescribed books are available in the library in sufficient numbers.82.3% of the teachers agreed that the most advanced clinical and lab exposure is being incorporated in the curriculum. A few of the teachers thinks that the curriculum needs revamping. About 29.4% teachers thinks that the existing curriculum is exhausting and needs periodic trimming.
