CHAIRMAN'S MESSAGE

Our vision is to emerge as a pioneer Dental and Research institute of global repute which is known for bringing forth dental professionals with expertise, dedication and social commitment. For that, we have already seized the opportunity to rethink and reposition ourselves through an innovative curriculum, talent mining and strategic alliances.

While moving to the forefront of Dental education, our spotlight falls on inventing novel platforms for knowledge creation and transfer through relentless research. 100% student centered learning is already practiced and we encourage the learners to manifest their knowledge and keep raising their benchmarks of performance.

We remain committed to the sustainable development of Dental and allied Health Education. Innovation plays a pivotal role and we aim to continuously and consistently nurture talent providing the best infrastructure as well as learning resources. By our constant engagement and initiatives towards faculty development and interactive learning programs intended to impart awareness and knowledge transfer; we make sure that research becomes a major activity. While providing value based education to students, we also remain socially responsible for participating and contributing to national health programs and to make "our students the Global Dentists of tomorrow."

In short, we make every possible step to envision and ensure a bright future for all.

Dr. P.S. Thaha
Chairman

MESSAGE FROM PRINCIPAL

The fraternity of PMS College of Dental Science and Research strive to bring together students with a specific goal in life and a dynamic approach to achieve it.

Our aim is to nurture talents in the field of dentistry on the firm foundations of global competencies and inviolable ethical principles.

We strive to achieve the world class facilities in dental treatment and teaching arena and thus achieving the excellence in the field of dentistry.

The academic atmosphere in the college is aiming at delivering quality education and society outreach services as out social responsibility.

We strive to impart knowledge, skill and attitude for a successful dental graduate, thereby creating an excellent professional and a good human being with values.

Our curriculum has been designed to enable our students to make them at par with the international standards.

I am happy that PMS College of Dental Science and Research with a legacy of 21 years is continuously striving and maintaining the quality of standards in education.

Dr. Rajesh Pillai
Principal
PMS College of Dental Science and Research

We are proud to announce that PMS College of Dental Science and Research is accredited on 18th October 2020-2022 with a CGPA of 3.10 on four point scale with A Grade valid up to 17th October 2027

VISION

To be an outstanding Dental & Research Institute of International repute for producing dental professionals with skills, knowledge and values.

MISSION

- Promote sustainable development of Dental and allied Health Education, consistent with statutory and regulatory requirements.
- Plan and continuously provide excellent infrastructure, learning resources required for quality education and innovations.
- Stimulate, to extend the frontiers of knowledge, through Faculty Development and Continuing Education Programs.
- Impart awareness on Dental Science and Oral Health to the society with special reference to Educational Institutions.
- Make research a significant activity involving Staff, Students and Society.
- Promote collaborations with Regional, National and International Institutions
- Establish healthy and regular interactions with all stakeholders for vision oriented growth.
- Fulfill the National Obligation through participation and contribution to National Health Programs.
- Provide regular value based education to the students.

COLLEGE PROFILE

PMS College of Dental Science & Research, set up at Thiruvananthapuram is the brainchild of NRI services and educational trust established in the year 2002. It is a premier Dental College in Kerala, named after the great visionary, Late Sri. P. M. SHAHUL HAMEED, father of our Chairman Dr P S. Thaha.

College is a venture with the cause of enhancing the state's self-reliance in the field of quality education in Dental Medicine and Surgery and is also the first self-financing Dental college in Kerala. The total area of the college is around 2 lakh sq. Feet situated on 12 acres of land at Vattappara, well connected by road, rail and air. The institution, recognized by the Dental Council of India (DCI) is affiliated with the Kerala University of Health Sciences (KUHS). We take pride in saying that the institution was the first to achieve the ISO 9001-2000 certification award among the Dental institution in India and the first Dental College in Kerala with NAAC accreditation.

PMS College of Dental Science & Research started with 40 admissions for BDS Courses and the number of BDS intake increased to 100 in the year 2011. We also started Post Graduation in the year 2010 with 23 admissions and the total seats increased to 36 in 2016.

The College also provides Implantology, Laser Dentistry workshops to give our students the best exposure to the latest trends and innovations in Dentistry. The students and faculty get ample opportunities to associate themselves with several dental programs organized in the college under the guidance of experts from India and abroad.

PMS has added another feather to its cap in 2017 by introducing a new system of education, The Integrated Micro teaching-learning system - "A Canadian system of Micro lecturing" and the introduction of CLAB (Classroom Integrated with Lab), aiming to attain international standards in teaching-learning system and pedagogical approaches. This has been expanded to the state of implementation of student centric teaching learning methodology so as to instil self-directed learning culture among our students. Usage of iPad by students and faculties enable teaching learning process in par with advanced technology.

Focusing on achieving the international standards of clinical learning and exposure, the institution initiated a skill development program named as Finishing School program for junior residents.

To deliver world class treatment facilities multidisciplinary and comprehensive oral health care system practiced in our Priority clinic and comprehensive clinics. The society outreach programs and various extension activities enrich the institution's mission and make social responsibility and commitment. The consistent Continuing Dental Education Programs supplement the students with skills, knowledge and values-based education. Establishing a Tobacco Cessation Clinic in the campus is an wonderful initiative and innovation for encouraging the community towards 'Quit Tobacco Usage'. The DSW (Department of Student Welfare), mentoring system, SSGP cell, SGRC, and student union play a significant growth in student support and providing a student-friendly campus.

SCHOLARSHIP ACHIEVEMENTS - PMS COLLEGE OF DENTAL SCIENCE AND RESEARCH (2024)

In the academic year 2024, PMS College of Dental Science and Research witnessed significant achievements in terms of scholarships awarded to its students. A total of **106 BDS students** and **14 MDS students** received scholarships from the Kerala State Government, recognizing their academic excellence. Furthermore, **3** students were honored with the **Prevest Spark All India National Scholarship**, which is a prestigious recognition at the national level. In addition to government scholarships, **98 students** from both BDS and MDS programs secured scholarships from various **non-government agencies**, further emphasizing the institution's commitment to supporting and nurturing talented students. These scholarships contribute to the academic growth and success of our students, enabling them to continue their education without financial hindrances.

INSTITUTIONAL FEE WAIVERS - PMS COLLEGE OF DENTAL SCIENCE AND RESEARCH (2024)

In the year 2024, PMS College of Dental Science and Research extended its support to deserving students through **institutional fee waivers**. A total of **23 BDS students** and **39 MDS students** benefited from this initiative, which aimed to reduce the financial burden on students and ensure that they have the opportunity to pursue their dental education without financial constraints. The fee waiver program underscores the institution's commitment to providing an accessible and equitable learning environment for all its students.

LIST OF AWARDS FOR FACULTIES

EXTENSION AND OUTREACH ACTIVITIES- PMS COLLEGE OF DENTAL SCIENCE AND RESEARCH FOR THE YEAR 2024

PMS College of Dental Science and Research has always prioritized community engagement as a key aspect of its mission. In 2024, the college conducted a range of extension and outreach activities focused on improving oral health awareness and providing dental services to underserved populations. These activities aimed to educate the public, reduce oral health issues, and promote preventive care, aligning with the college's commitment to public health and social responsibility.

PRINCIPAL
PMS COLLEGE OF DENTAL
SCIENCE & RESEARCH
THIRUVANANTHAPURAM-28

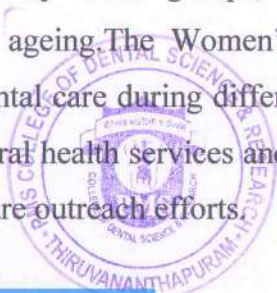

Key Outreach Activities

1.Oral Health Awareness Programs: A significant portion of the outreach efforts was dedicated to educating individuals about the importance of oral hygiene and preventive care. These programs targeted children, adults, and senior citizens, and included interactive sessions on topics like tooth brushing, hand washing, and the prevention of common dental issues such as cavities and gum diseases. These awareness programs were conducted in collaboration with local schools, community groups, religious organizations, and social clubs. The sessions included demonstrations on proper brushing techniques, the importance of regular dental check-ups, and advice on maintaining overall oral hygiene.

2. Dental Camps: The college organized a series of dental camps across various regions, offering free consultations, oral health screenings, and basic treatments. These camps were set up in both urban and rural areas, including schools, community centers, and religious institutions, to ensure accessibility to dental services for all members of the community. The camps provided a platform for participants to receive advice on their oral health, as well as early detection and treatment of dental conditions. These camps were especially beneficial for individuals who had limited access to dental care due to financial or geographical constraints.

3. Caries Risk Assessment: Another key initiative was the caries risk assessment camps, which focused on identifying individuals at risk of developing dental cavities. Through this initiative, the college assessed the dental health of hundreds of individuals and provided personalized advice on how to reduce the risk of caries and maintain good oral health. These assessments involved screening for early signs of dental decay and offering guidance on diet, oral hygiene practices, and fluoride use to prevent further complications. The camps were aimed at educating individuals about the importance of early detection and preventive care.

4.Special Events: The college also hosted special programs and events tailored to specific groups, such as women and the elderly. These events addressed the unique dental health challenges faced by these groups, including oral health issues related to pregnancy, menopause, and ageing. The Women's Day program, for example, focused on educating women about dental care during different stages of life, while the dental camp at an old age home provided oral health services and advice to senior citizens, a group often overlooked in standard healthcare outreach efforts.

PRINCIPAL
PMS COLLEGE OF DENTAL
SCIENCE & RESEARCH
THIRUVANANTHAPURAM-28

The outreach activities conducted by PMS College of Dental Science and Research in 2024 reached a wide audience, including children, adults, and elderly individuals from diverse socio-economic backgrounds. These initiatives not only enhanced awareness about the importance of oral health but also provided access to much-needed dental care for underserved communities.

The extension and outreach activities of PMS College of Dental Science and Research in 2024 have been a resounding success in terms of both community engagement and public health impact. By focusing on preventive care, education, and access to dental services, the college has made significant strides in improving the oral health of individuals from various communities. Moving forward, the college will continue to build on these efforts, further enhancing its role in promoting oral health and well-being.

SOCIAL COMMITMENTS

Our institution strives to empower the students & employees in achieving personal and professional excellence through institutional best practices. The institution has initiated a unique project named **SUSMERAM PROJECT**, aimed at making all the residents of Vembayam Panchayath aware of good oral health practices & to ensure tobacco cessation. The institutional team comprising of UG students, interns, house surgeons, Post graduates and faculties provided health awareness to the families and undertook various measures to ensure the same. Through this project, our students got oriented towards the various dental specialities and have gained a social platform to reach out to the patients. Through Susmeram project we screened 815 patients, as of August 2024. Our Institution also reached out various rural populations and conducted oral health care camps catering to patients of all socioeconomic classes. As part of achieving social commitment, we have conducted 125 rural dental camps and screened /treated 12918 patients. We believe by implementing best practices, a dental college can provide a high quality educational experience to our students while contributing to the welfare of society.

WELFARE MEASURES FOR TEACHING AND NON-TEACHING STAFF

Our Teaching and Non-teaching staff is the lifeline of the institution and the management is highly supportive towards the teaching and non-teaching staff. Welfare measures include Accidental Insurance coverage, Employee State Insurance scheme and Provident Fund Scheme. Incentives are given as a token of appreciation to teaching staff for publishing indexed international and national journals. Financial help in case of emergencies is being provided to teaching staff through loans and advances without interest. Leave with pay is provided to teaching staff for attending seminars, workshops, conferences, and educational purposes. Staff quarters, single accommodation, and daycare facilities are also provided.

Non-teaching staff are provided with financial support and accouterments during school opening every year and with festival allowance or bonus during festive seasons. Family leave is offered to teaching staff as a voluntary measure for the betterment of their family. Leave with pay is given to teaching staff for medical reasons for themselves and their family members. Faculties are encouraged to pursue higher studies such as PhD and other fellowship courses and provide adequate support in terms of paid leaves and special leaves and a lighter workload. The College also provides access to recreational facilities like gyms, swimming pools, and subsidized canteen services, ensuring employees' physical and emotional well-being. Furthermore, staff is eligible for counseling services to manage stress and burnout. By promoting a healthy and fulfilling work environment, the policy seeks to foster a mutually beneficial relationship between the institution and its employees.

WELFARE MEASURES FOR STUDENTS

PMS College of Dental Science and Research is dedicated to the holistic development and well-being of its students, implementing a range of welfare measures to support their academic, personal, and professional growth. The college prioritizes health and wellness by offering regular health check-ups, on-campus medical care, and counseling services to address the physical and mental health needs of students. Financial assistance is provided through scholarships and fee waivers for academically meritorious and economically disadvantaged students, along with support for obtaining educational loans. To enhance learning, the institution offers robust academic support through personalized mentorship

PRINCIPAL
PMS COLLEGE OF DENTAL
SCIENCE & RESEARCH
THIRUVANANTHAPURAM-28

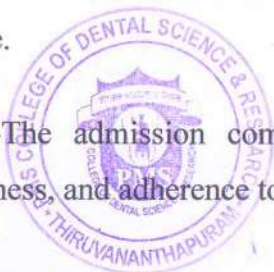

programs, access to well-stocked libraries, advanced laboratories, and e-learning resources that cater to diverse educational needs. Accommodation facilities are designed to provide a safe and comfortable living environment, with modern hostels equipped with necessary amenities and 24/7 security.

In addition to academics, the college encourages students to engage in skill development and extracurricular activities by organizing workshops, seminars, and training sessions that enhance their competencies and prepare them for future careers. Opportunities to participate in sports, cultural programs, and research activities further contribute to their overall development. A dedicated grievance redressal system ensures that student concerns are addressed promptly and effectively, fostering a supportive and inclusive campus

environment. Alumni support programs connect current students with accomplished graduates, offering career guidance and mentorship opportunities. These comprehensive welfare measures reflect PMS College's commitment to nurturing a conducive environment that empowers students to achieve academic excellence, personal well-being, and professional success.

LIST OF COMMITTEES

1. Administrative committee-The administrative committee manages and coordinates the institution's operational, financial, and infrastructural functions to ensure smooth and efficient administration.
2. Academic committee-The academic committee oversees and ensures the planning, implementation, and quality enhancement of academic programs, policies, and activities.
3. IQAC-The Internal Quality Assurance Cell is responsible for planning, guiding, and monitoring quality assurance and enhancement initiatives to improve academic and administrative performance.
4. Admission committee-The admission committee supervises the admission process, ensuring transparency, fairness, and adherence to eligibility criteria and institutional policies.

ALUMNI

The Alumni Association of PMS College of Dental Science and Research has continued to foster strong connections with its graduates and play an essential role in supporting the college's growth and development. Throughout the year, the association engaged in several impactful initiatives:

Donation Drives and Contributions: The Alumni Association organized donation drives encouraging outgoing postgraduate students to contribute essential resources like instruments, books, and equipment. In a remarkable show of gratitude, the postgraduate alumni from the Department of Periodontics donated five sets of Chairside Diagnostic Sets, enhancing the college's clinical facilities and supporting the training of future students.

Alumni Meet and Recognition: The alumni meet "Thirike," organized by the 2011 BDS batch, provided a platform for alumni to reconnect and celebrate their legacy. During the event, the association introduced the **Best Alumni Awards** to recognize distinguished contributions in various fields. Alumni also generously contributed to the college's endowment fund to support its ongoing development.

Resource Talks and Professional Development: Several resource talks were organized by the Alumni Association, focusing on key topics such as **Dental Photography** and **Oral Health in Palliative Care**. These talks, led by esteemed alumni, provided valuable insights into the latest trends and advancements in the dental profession.

Global Expansion and Communication: The Alumni Association expanded its global reach by establishing new chapters in the **Gulf Cooperation Council (GCC) countries** and the **United Kingdom**. Additionally, an active WhatsApp group was created to facilitate communication among alumni, sharing job opportunities, scientific updates, and institutional news. The Alumni Association's contributions have greatly supported the college's growth, fostering a collaborative and engaged alumni community. The college continues to benefit from these efforts, ensuring the continued development of its resources and strengthening ties with its alumni network.

EXTRACURRICULAR ACTIVITIES

PMS College of Dental Science and Research is dedicated to the holistic development of its students, fostering not only academic excellence but also the growth of their innate talents and aptitudes. The college provides ample opportunities for students to explore and nurture their passions beyond the classroom setting. One such initiative is the club activities that take place every second Wednesday of the month. These clubs include the Dance Club, Music Club, Sports Club, Fine Arts Club, Literary Club, and Nature Club. Each of these clubs serve as a platform for students to engage in activities that allow them to hone their skills, develop leadership qualities, and collaborate with peers. Whether it's through expressive performances in dance and music, showcasing artistic talents in fine arts, or participating in sports, these clubs help students discover and nurture their hidden talents. The college's commitment to extracurricular excellence is reflected in the success of its students at major state level cultural and sports events and students have consistently received accolades and awards for their performances. PMS College of Dental Science and Research has successfully hosted the All Kerala Interdental Sports Meet, bringing together dental professionals from across the state for a competitive and spirited event. These achievements underscore the college's dedication to fostering a well-rounded educational experience. By
