VENUE: **DR R AJAYD CENTRAL AUDITORIUM**

SPEAKER
DR KAARTHIKEYAN G
MD, MSc

RELEVANCE OF THE TOPIC

Oral health is one of the most important factors leading to a successful dental restoration. The success of a dental restoration depends on the quality of the oral health of the patient. The topic of occlusal considerations in restorative dentistry is highly relevant to the dental profession. It is a topic that is often overlooked, but it is one of the most important factors in determining the success of a dental restoration. The topic is highly relevant to the dental profession as it is a topic that is often overlooked, but it is one of the most important factors in determining the success of a dental restoration. The topic is highly relevant to the dental profession as it is a topic that is often overlooked, but it is one of the most important factors in determining the success of a dental restoration.
